CAB International (CABI) is an international, inter-governmental, not-for-profit organization established by a United Nations treaty-level agreement between our Member Countries, that improves people's lives worldwide by providing information and applying scientific expertise to solve problems in agriculture and the environment.

Devyani Ramola

Has completed the following course:

Crop Pest Diagnosis Fundamentals

Certificate level
Foundation

Grade (Pass Grade = 80%)
-

Duration
8-10 hours

Learning outcomes
- Explain what is meant by the term 'pest'
- Outline the pest diagnostic process and explain why it's important
- Identify major pests by their core characteristics and behaviours
- Identify common symptoms as they relate to different pest groups
- Interpret plant symptoms to suggest possible pest causes
- Refine your diagnoses by checking symptoms with field guides, diagnostic keys, and mobile tools
- Avoid common pitfalls and adhere to key considerations when making a diagnosis

Skills learnt
Skills Framework

This course maps to a range of related skills in the Skills for Agriculture Framework (SFA). By completing this course, you will build on the following skill:

Skill 1: Pest and Disease Identification

UN Sustainable Development Goals

The UN Sustainable Development Goals (SDGs) recognise that ending poverty and other deprivations must go hand-in-hand with strategies that improve health and education, reduce inequality, and spur economic growth. This course aligns with the following sustainability goals:
